**FOR IMMEDIATE RELEASE**

**COFFEYVILLE RESOURCES NITROGEN FERTILIZERS**  
**MARKS 2005 WITH NO LOST-TIME ACCIDENTS**

**Coffeyville, Kan. (January 19, 2006)** — Coffeyville Resources Nitrogen Fertilizers, LLC today announced that the Company reach a safety goal for 2005 with employees having zero “days away from work” caused by an accident, a tremendous accomplishment in a coke gasification nitrogen fertilizer facility.

Although this achievement is for fiscal year 2005, the Company has logged more than 526 days without an accident resulting in lost time from work since August 10, 2004, which amounts to 270,000 hours worked. The Company’s previous record was 290 days.

"Days away from work" refers to a non-fatal injury that causes any loss of time from work beyond the day or shift in which it occurred.

“Our success is driven by the involvement and commitment of our employees,” said Kevan Vick, Executive Vice President and General Manager of Coffeyville Resources Nitrogen Fertilizers. “We are extremely proud of this accomplishment and believe it is a milestone in our continuing dedication to safety performance.”

Company management and employees worked to increase safety awareness during the last few years by instituting safety activities in the workplace and offering behavioral-based incentives to keep employees focused on working safely.
